Li Yang (XiangYa Hospital, China)
P1-46  Long Term Epilepsy Outcome in West Syndrome
Jithangi Wanigasinghe (University of Colombo, Sri Lanka)

P1-47  Myanmar Experience on Infantile Spasms: A Case Series
Chaw Su Hlaing (Yangon Children Hospital, Myanmar)

P1-48  Infantile Spasms Caused by Intracranial Hemorrhage Display Favor Outcome and Response to AEDs? Three Cases Report of One Center Experience in Taiwan
Shyi-Jou Chen (Tri-Service General Hospital, National Defense Medical Center, Taiwan)

P1-49  Evolution of West Syndrome in Infants with Tuberous Sclerosis Complex
Harumi Yoshinaga (Okayama University Graduate School of Medicine, Japan)

P1-50  Efficacy of Vigabatrin Therapy for Tuberous Sclerosis with Infantile Spasms
Sato Suzuki-Muromoto (Miyagi Children's Hospital, Japan)

P1-51  Clinical Features of Benign Epilepsy of Childhood with Centrottemporal Spikes in Chinese Children
Meng Jia Liu (Chinese PLA General Hospital, China)

P1-53  Study of Sleep in Benign Childhood Epilepsy with Centro-Temporal Spikes (BECT)
Xiaoli Yu (Tianjin Children Hospital, China)

P1-54  Saikokaryukotsuhoreito as a First Choice for Benign Epilepsy of Children with Centro-Temporal EEG Foci (BEECT)
Eiji Kurihara (Tokyo Metropolitan Neurological Hospital, Japan)

P1-55  A Case of BECTS which Exhibits Electrical Status Epilepticus During Sleep
Hideyo KINUGASA (Tsukuba Gakuen Hospital, Japan)

P1-56  Comparative Retention Rates of Antiepileptic Drugs in BECTS Patients
Xiu-Yu Shi (Chinese PLA General Hospital, China)

P1-57  Risk Factors for Neuropsychological Impairment in Benign Epilepsy with Centrottemporal Spikes
ISSA HABIB ALMASHMOOM (King Faisal Specialist Hospital and Research Center, Kuwait)

P1-58  Characteristics of The Focal Clinical Manifestation and Electroencephalogram in Children with Typical Absence Seizure
Jun Jiang (Wuhan Women and Children Health Care Center, China)

P1-59  Prognostic Factors in First-drug Therapy Outcome with Children Absence Epilepsy
Chen Jing (Children's Hospital of Nanjing Medical University, China)

P1-60  Outcomes of a Proposed Treatment Strategy for Childhood Absence Epilepsy
Won Seop Kim (Eulji University Hospital, Republic of Korea)

P1-61  The Cognitive Mechanism of Mathematical Processing Dysfunction in New-Onset Childhood Absence Epilepsy
Qian Chen (Capital Institute of Pediatrics, China)

P1-62  Treatment of Juvenile Myoclonic Epilepsy and Assessment of Patient's Background
Miki Inutsuka (Sasebo Chuo Hospital, Japan)

P1-63  Risk Factors for Frontal Lobe Dysfunctions in Children with Frontal Lobe Epilepsy
Hideaki Kanemura (University of Yamanashi, Japan)
P1-64  Ictal Asystole Caused by Nocturnal Frontal Lobe Epilepsy: A Case Report
Xinyue Zhang (The first hospital of Jilin University, China)

P1-65  Right Occipital Lobe Epilepsy with Specific Reading Disorder in Japanese
Hiroyasu Nakagawa (Asanogawa General Hospital, Japan)

P1-66  Cognitive Impairment in Idiopathic or Cryptogenic Epilepsy: Characterization and Risk Factors Analysis
Xue Wang (The First Affiliated Hospital of Jilin University, China)

P1-67  Paroxysmal Nonepileptic Events in Children with Epilepsy
Yuji Ito (Nagoya University Graduate School of Medicine, Japan)

P1-68  Patients with Psychogenic Non-epileptic Seizure (PNES), Secondary to Refractory Epilepsy in Japanese Regional Emergency Center
Taro Kitamura (Sendai City Hospital, Japan)

P1-69  Epilepsy in Ornithine Transcarbamylase Deficiency Two Patients with Unusual Presentation and Neuroimaging Findings
Furene Sijia Wang (National University Hospital, Singapore)

P1-70  Epileptic Seizure, As The First Symptom of Hypoparathyroidism in Children, Does Not Require Anti-Epileptic Drugs
Meng Jia Liu (Chinese PLA General Hospital, China)

P1-71  Novel Phenotypes of Pyridox(am)ine-5'-Phosphate Oxidase Deficiency and High Prevalence of c.445_448del Mutation in Chinese Patients
Jiao Xue (Peking University First Hospital, China)

P1-72  Epileptic Seizure as an Initial Symptom of Hereditary Diffuse Leukoencephalopathy with Spheroids
Tomoko Toyota (University of Occupational and Environmental Health School of Medicine, Japan)

P1-73  Alternating Hemiplegia of Childhood Presenting with Intractable Infantile Seizures
Ming-Yang Shih (Taichung Veterans General Hospital, Taiwan)

P1-74  Motor Function Profile in Patients with Alternating Hemiplegia of Childhood
Mohamad A. Mikati (Duke University Medical Center, United States of America)

P1-75  Chromosomal Disorders and Epilepsies
Hsiu-Fen Lee (Taichung Veterans General Hospital, Taiwan)

P1-76  Intractable Epilepsy in Ring Chromosome Syndromes.
Yoji Ikuta (Showa General Hospital, Japan)

P1-77  Symptomatic Epilepsy with Chromosome Aberration: Report of Two Cases
Shigeto Matsumaru (Tokyo Women's Medical University, Japan)

P1-78  Clinical Features of Epileptic Apnea Occurring in Early Postnatal Periods in Trisomy 18.
Satoshi Takenaka (The University of Tokyo Hospital, Japan)

P1-79  A Case with Holoprosencephaly and Periventricular Nodular Heterotopia Presenting Various Seizure Types
Motomasa Suzuki (Aichi Children’s Health and Medical Center, Japan)
P1-80  Epilepsy Characteristics and Clinical Outcome in a Patient with Megalencephaly, Polymicrogyria and Ribbon-Like Band Heterotopia  
Yu Kobayashi (Nishi-Niigata Chuo National Hospital, Japan)

P1-81  Clinical Characteristics of 40 Epileptic Children with Cerebral Cortical Dysplasia  
Jingwen Zhang (Guangdong General Hospital (Guangdong Academy of Medical Sciences), China)

P1-82  Epilepsy in Children with Brain Tumors: a Retrospective Clinical Analysis  
Min-Lan Tsai (Taipei Medical University Hospital, Taiwan)

P1-83  Characteristics of Migraines in Pediatric Focal Epileptic Syndrome  
Inn-Chi Lee (Chung Shan Medical University Hospital, Taiwan)

P1-84  Clinical Features of Convulsions with Norovirus Gastroenteritis in Pediatric Emergency Department  
Mei-Hua Hu (Chang Gung Memorial Hospital, Taiwan)

P1-85  Seizure Characteristics with Mild Gastroenteritis Caused by Norovirus Infection.  
Shin Hye KIM (Seonam University, Myongji Hospital, Republic of Korea)

P1-86  Association Between Helicobacter Pylori Infection and Epilepsy: A Meta-Analysis  
Gang Yao (The Second Hospital of Jilin University, China)

P1-87  Spinal Fluid Cytokine Levels and SPECT Findings in Complex Febrile Seizures  
Gaku Yamanaka (Tokyo Medical University, Japan)

P1-88  Expression Levels of ICAM-1 and LFA-1 in Plasma and PBMC of Children with Febrile Seizures  
Zhisheng Liu (Wuhan Children’s Hospital, China)

P1-89  The Association Between Iron Deficiency and Febrile Seizures in Children  
Eun Hye Lee (School of Medicine, Kyung Hee University, Republic of Korea)

P1-90  Factors Prognostic of Subsequent Epilepsy After Seizure with Fever in Children Over 6 Years Old  
Ji-hye Baek (Korea University College of Medicine, Republic of Korea)

P1-91  The Correlation Between Febrile Seizure Plus and Unprovoked Seizure in Children on Jeju Island, South Korea  
Seunghyo Kim (Jeju National University Hospital, Republic of Korea)

P1-92  Trend of Subsequent Epilepsy in Children with Recurrent Febrile Seizures  
Jeng-Dau Tsai (Chung Shan Medical University Hospital, Taiwan)

P1-93  Risk Factors Predict Subsequent Epilepsy in Children with their Febrile Seizures: A Meta-Analysis  
Zhaoxia Li (The Second Hospital of Shandong University, China)

P1-94  Epidemiology of Prolonged Febrile Seizures in Children at the Age of 3  
Masahiko Kimura (Kimura Children and Family Clinic, Japan)

P1-95  Isogenic IPSCs from an Individual with SCN1A Mutation Mosaicism Revealed Aberrant Dopamine Levels in Dravet Syndrome Neurons  
Hiroshi Maeda (Kyoto Prefectural University of Medicine, Japan)
P1-96  Somatic Mosaic Deletions Involving SCN1A Cause Dravet Syndrome
Tojo Nakayama (Tohoku University School of Medicine, Japan)

P1-97  Prognosis and Neuroimaging of Acute Encephalopathy after Status Epilepticus in Dravet Syndrome
Zhang Yuehua (Peking University First Hospital, China)

P1-98  Dravet Syndrome: Illustration of Phenotypic Diversity from a Local Case Series of a Regional Hospital in Hong Kong
K. T. Liu (Pamela Youde Nethersole Eastern Hospital, Hong Kong Special Administrative Region of China)

P1-99  De Novo SCN8A Mutation Identified by Whole-Exome Sequencing in a Boy With Early-Onset Epileptic Encephalopathy and Movement Disorders
Lingjuan Liu (The Second Xiangya Hospital of Central South University, China)

P1-100  Autistic Behaviors in A Patient with De Novo SCN8A Mutation and Rescued by Lamotrigine
Xiao-fan Yang (Qilu Hospital of Shandong University, China)

P1-101  POLG Related Catastrophic Convulsion: Case Report of A 4-year Old Girl Who Presented with Super Refractory Status Epilepticus
K. T. Liu (Pamela Youde Nethersole Eastern Hospital, Hong Kong Special Administrative Region of China)

P1-102  Pediatric Super-Refractory Status Epilepticus: Case Series
Citra Raditha Zein (Harapan Kita Women and Children Hospital, Indonesia)

P1-103  Neuropsychiatric Morbidities Following Treatment for Super-refractory Status Epilepticus in an Adolescent Patient
Ceren Gunbey (Hacettepe University Medical Faculty, Turkey)

P1-104  Clinical Characteristics of Six Patients with Status Epilepticus Associated with HFMD
Kiyotaka Zaha (National Defense Medical college, Japan)

P1-105  Status Epilepticus in Gliomatosis Cerebri: A Case Report
Jia-De Yin (Taichung Veterans General Hospital, Taiwan)

P1-106  Clinical Characteristics and Outcomes of Children with Non-convulsive Status Epilepticus: Case Series
Thitiporn Fangsaad (Bhumubol Adulyadej hospital, Thailand)

P1-107  Ketamine-Induced Generalized Tonic-Clonic Seizure
Young Il Rho (Chosun University, Republic of Korea)

P1-108  Pediatric Autoimmune Encephalitis (Anti-N-Methyl-D-Aspartate Receptor Encephalitis Suspected): A Case Report
Meity Asyari Rahmadhani (University of Indonesia, Indonesia)

P1-109  Anti-N-methyl-D-aspartate Receptor Encephalitis with Severe Autonomic Dysfunctions in a Male Toddler: A Case Report
Li-Ying Liu (Chinese PLA General Hospital, China)

P1-110  Case Series of Anti-N-Methyl-D-Aspartate Receptor (NMDAR) Encephalitis in Children In Hong Kong
C. C. A. Ho (Queen Mary Hospital, Hong Kong)
P1-111 Anti-N-Methyl-D-Aspartate Receptor Encephalitis in Children of Central-South China: Clinical Features, Treatment, Influencing Factors, and Outcomes
Jing Peng (Xiangya Hospital of Central South University, China)

P1-112 Behavioural Management and Symptom Control in Patients with Severe Anti-NMDA Encephalitis
Jocelyn Lim (KK Women's and Children's Hospital, Singapore)

P1-113 Findings of Continuous EEG in Pediatric Patients with Anti-NMDA Receptor Encephalitis.
Krittawit Anuroj (King Chulalongkorn Memorial Hospital, Thailand)

P1-114 Treatment Variety and Clinical Outcomes in NMDA Encephalitis in Pediatric Population in Limited Resources in Northern Part of Thailand, Chiang Mai University Hospital
Kamornwan Katanyuwong (Chiang Mai University Hospital, Thailand)

P1-115 Clinical Features and Cerebrospinal Fluid Cytokine/Chemokine Profiles of Anti-NMDAR Encephalitis in Children
Tomonori Suzuki (Tokyo Metropolitan Institute of Medical Science, Japan)

P1-116 Two Cases of Anti-MOG Antibody Positive ADEM Associated with Chlamyphilia Pneumoniae
Kohji Azumagawa (Seikeikai Hospital, Japan)

P1-117 The Rapid and Quantitative Anti-MOG Autoantibody Assay Using Flow Cytometry
Kuniko Kohyama (Tokyo Metropolitan Institute of Medical Science, Japan)

P1-118 A case Report of Neuromyelitis Optics with 30 Years’ Interval Between Optic Neuropathy and Spinal Cord Injury
Xinyue Zhang (The first hospital of Jilin University, China)

P1-119 Alopecia as the Initial Manifestation of Neuromyelitis Optica Spectrum Disorder in A 7-Year-Old Girl
Xiaofan Yang (Qilu Hospital of Shandong University, China)

P1-120 A Case of Neuromyelitis Optica Spectrum Disorder Preceded by HyperCKemia
Shiro Ozasa (Kumamoto University, Japan)

P1-121 RAnti-Aquaporin-4 Antibody in a Toddler; A Real Pathogenetic Marker of The Encephalitis?
Hyeonmin Park (Asan medical center, Republic of Korea)

P1-122 A Case Of Acute Disseminated Encephalomyelitis Followed By Optic Neuritis. Fulfilling The Criteria For Neuromyelitis Optica
Kohei Takashima (Japanese Red Cross Society Nagahama Hospital, Japan)

P1-123 Differing Clinical Courses after Retrobulbar Optic Neuritis with Myelin-Oligodendrocyte Glycoprotein Antibodies
Tomofumi Fukuda (University of Occupational and Environmental Health, Japan)

P1-124 Antibody Detection and Short Term Outcome of Pediatric Optic Neuritis
Yuki Kasuga (Nihon University School of Medicine, Japan)

P1-125 Successful Management of A 3-Year-Old Girl with Fulminant Guillain-Barré Syndrome
Manami Akasaka (Iwate Medical University, Japan)
Comparison of Clinical Profile and Short-Term Outcome of Demyelinating and Axonal Subtypes of Guillain-Barré Syndrome (GBS) in Children
Pradeep Kumar Gupta (PGIMER Chandigarh, Nepal)

Guillain-Barré Syndrome (GBS) of Chinese Children in Hong Kong: A Retrospective Study Focusing on Subtype Diagnosis, Management and Outcome
Wing Cheong LEE (Pamela Youde Nethersole Eastern Hospital, Hong Kong)

A Nationwide Survey of Guillain-Barré Syndrome, Fisher’s Syndrome, and Bickerstaff’s Brainstem Encephalitis in Children in Japan
Hajime Ikehara (Chiba University Graduate School of Medicine, Japan)

Anti-GQ1b Antibody Syndrome with Acute Ophthalmoplegia in Chinese Paediatric Patients
Eric Kin-cheong Yau (Princess Margaret Hospital, Hong Kong)

Anti GQ1b Antibody Syndrome in Korean Children
Young Mi Kim (Pusan National University Hospital, Republic of Korea)

Miller-Fisher Syndrome Complicated with Bickerstaff Brainstem Encephalitis: A Case Report
Xinyue Zhang (The first hospital of Jilin University, China)

A Case of Miller Fisher Syndrome Associated with Consciousness Alteration as Seen in Bickerstaff Brainstem Encephalitis.
Tetsuharu Kamioka (National Center for Child Health and Development, Japan)

Efficacy of Intravenous Immunoglobulin Therapy for Childhood Primary Angitis of The Central Nervous System: A Case Report
Hiroya Nishida (Tokyo Metropolitan Neurological Hospital, Japan)

A 3 Y/O Girl Post with EB Virus Infection Complicated of Acute Disseminated Encephalomyelitis and Response to IVIG
Shyi-Jou Chen (Tri-Service General Hospital, National Defense Medical Center, Taiwan)

The Efficacy and Safety of Rituximab in the Treatment of Children with Myasthenia Gravis
Taoyun Ji (Peking University First Hospital, China)

Two Pediatric Cases of Autoimmune Autonomic Neuropathy
Toshiyuki Maeda (Saga University, Japan)

Two Cases of Acute Autonomic and Sensory Neuropathy
Yu Kakimoto (National Center for Child Health and Development, Japan)

How Can We Manage a Child Who Is Diagnosed with Subacute Inflammatory Demyelinating Polyradiculo-Neuropathy?
Ryota Igarashi (University of Occupational and Environmental Health, Japan)

Clinical Features of Pediatric Acquired Demyelinating Syndromes in Japan
Hiroyuki Torisu (Fukuoka Dental College, Japan)

Increased levels of Anti-Phosphatidylcholine and Anti-Phosphatidylethanolamine Antibodies in Three Pediatric Patients with Cerebral Infarction
Seigo Korematsu (Oita University Faculty of Medicine, Japan)
P1-141  Repetitive Localized Leptomeningitis: A Case Report with Unique Radiological Features
Mondo Kuroda (Kanazawa University, Japan)

Day 1 May. 11th, 2017 (Thursday)  Poster Room B

9:30-10:00 & 15:30-16:00

Pearl Joy Lumongsud Sendaydiego (Philippine Children’s Medical Center, Philippines)

P1-143  Beneficial Effect of Intravenous L-arginine in a Pediatric Patient with MELAS
Ceren Gunbey (Hacettepe University Medical Faculty, Turkey)

P1-144  Study of Mitochondrial A3243G in Blood and Urine Samples of Patients with Mitochondrial Encephalopathy Lactic Acidosis Stroke Like Episodes
Chia-Ru Li (Tung’s Taichung Metroharbor Hospital, Taiwan)

P1-145  Oxidative Phosphorylation Deficiency Associated with Two Novel Mitochondrial DNA Mutations
Dongxiao Li (Peking university first hospital, China)

P1-146  The Value of Serum Fibroblast Growth Factor 21 (FGF-21) in the Diagnosis of Mitochondrial Disease
Shu-fang Li (Beijing Children’s Hospital of Capital Medical University, China)

P1-147  Ketogenic Diet Treatment in Patients with Mitochondrial Encephalomyopathy, Lactic Acidosis, and Stroke-Like Episodes
Chunmei Wang (Children’s Hospital of Shanghai, China)

P1-148  Neuromuscular Involvement in Children with Mitochondrial Disease: A Single Centre Experience
Annie TG Chiu (Queen Mary Hospital, Hong Kong)

P1-149  Neuropsychological Function and Parenting Stress in Pediatric Mitochondrial Disease
Soyong Eom (Yonsei University College of Medicine, Republic of Korea)

P1-150  A Girl with Psychomotor Regression and Lactic Acidemia with A Rare Mitochondrial DNA Microdeletion M.9204delAT
Tomonari Awaya (Kyoto University Graduate School of Medicine, Japan)

P1-151  A Chinese Girl with Mitochondrial 3-Hydroxy-3-Methylglutaryl-CoA Synthase Deficiency and Two Novel Mutations in The HMGCS2 Gene
Hui Dong (Peking University First Hospital, China)

P1-152  A Case of Reduced Mitochondrial Respiratory Chain Complex IV Activity with Serious Respiratory Disorder in Early Infancy
Osamu Kobayashi (Oita University, Japan)

P1-153  The Clinical and Genetic Characteristics in Children with Leigh Syndrome
Shu-fang Li (Beijing Children’s Hospital of Capital Medical University, China)

P1-185  Extensive White Matter Lesions in Wilson’s Disease
Wen-yu Lu (Min-Sheng General Hospital, Taiwan)

P1-186  Early Onset Brain Calcification is a Risk Factor for Hypocalcemia After Calcium Supplement treatment in children with parathyroid disorders
Meng-Jia Liu (Chinese PLA General Hospital, China)
P1-187  ALMS1 Mutations in Alström Syndrome  
Chunmei Wang (Children's Hospital of Shanghai, China)

P1-188  Hereditary Multiple Exocytosis  
Nezir Ozgun (Diyarbakir Çocuk Hastanesi, Turkey)

P1-189  Two Siblings With “TUBB E410K Syndrome”  
Michiko Yoshida (Kyoto Prefectural University of Medicine, Japan)

P1-190  Identification of Two Novel Mutations in TUBB4A and Prenatal Diagnosis in Chinese Patients with Hypomyelination with Atrophy of the Basal Ganglia and Cerebellum  
Haoran Ji (Peking University First Hospital, China)

P1-191  Hypomyelinating Leukodystrophy with TUBB4A Mutation: Report of 2 Patients in a Chinese Family and Literature Review  
Jingjing Liang (Peking University People's Hospital, China)

P1-192  A Mild Case of Tubulinopathy with A Novel Missense Mutation of The TUBA1A gene  
Tatsuharu Sato (Nagasaki University Hospital, Japan)

P1-193  Clinical Features and Genetic Analysis in Intellectual Disability Children with Epilepsy of Unknown Cause  
Ahmed Arafat (Xiangya hospital of Central South University, China)

Shu Chien (Taichung Veterans General Hospital, Taiwan)

P1-195  Identification of TFB2M c.790C>T (His264Tyr) Homozygous Variant in Korean Patients with Intellectual Disability by Whole-Exome Sequencing  
Seon-Yong Jeong (Ajou University School of Medicine, Republic of Korea)

P1-196  “Metabolic Microcephaly” Due to Abnormal Amino Acid Metabolism: A New Group of Neurodevelopmental Disorders  
Tojo Nakayama (Boston Childrens Hospital, United States of America)

P1-197  A Chinese Girl with Glutathione Synthetase Deficiency and Two Novel Mutations on Her GSS Gene  
Hong Zheng (The First Hospital of Henan university of Traditional Chinese Medicine, China)

P1-198  Two Chinese Siblings and Their Mother Died in Ornithine Transcarbamylase Deficiency  
Hong Zheng (The First Hospital of Henan university of Traditional Chinese Medicine, China)

P1-199  An Infant with Encephalopathy and Hepatopathy Due to Congenital Disorder of Glycosylation Type 1a  
Hong Zheng (The First Hospital of Henan university of Traditional Chinese Medicine, China)

P1-200  Two Chinese Boys with Lesch-Nyhan Syndrome and Novel Mutations in HRPT1 Gene  
Hong Zheng (The First Hospital of Henan university of Traditional Chinese Medicine, China)

P1-201  A Novel CLN5 Mutation in a Chinese Late Infantile Neuronal Ceroid lipofuscinosis Family  
Yunli Han (The first affiliated hospital of guangxi medical university, China)

P1-202  A Fulminant and Late Onset Case of Leigh Syndrome Without Developmental Delay Due to T9176C Mutation of Mitochondrial ATPase 6 Gene  
Jianmin Liang (First Hospital of Jilin University, China)
| P1-203 | Expanding Clinical Spectrum of PNPT1 Mutation: from Epileptic Encephalopathy to Leigh Syndrome |
| P1-204 | Consecutive Analysis of Leigh Syndrome in Korea: Clinical and Genetic Spectrum |
| P1-205 | A Case Report of Multi-deficiency of Smooth Muscles with ACTA2 Mutation |
| P1-206 | Cerebral Angiopathies in Patients with ACTA2 Mutations |
| P1-207 | Thrombotic Thrombocytopenic Purpura in A 13-Year-Old Girl Presenting with Thunderclap Headache and Reversible Expressive Aphasia: A case report |
| P1-208 | Pediatric Ischemic Stroke With Heart Disease: Case Series |
| P1-209 | A Little Girl with Right Basal Ganglion Stroke After A Minor Head Trauma |
| P1-210 | Three Cases of Pediatric Cerebral Infarction Caused by Different Mechanisms |
| P1-211 | Unilateral Spatial Neglect in Children with Cerebrovascular Disorders |

| P1-213 | Report of Two Cases of Reversible Ischemic Neurological Deficit in Children |
| P1-214 | Moyamoya Disease Presented with Psychological and Behavioral Abnormalities in A 3 Years Old Girl — A Case Report |
| P1-215 | Spectrum of Clinical Presentation in Pediatric Moyamoya Disease: A Case Series |
| P1-216 | A Pediatric Case with Recurrent Painful Ophthalmoplegic Neuropathy |

**Day 2 May. 12th, 2017 (Friday)**

**Poster Room A**

**10:00-10:30 & 15:10-15:40**

| P2-1 | Developmental Characteristics in Early Infancy of ASD Children |
| P2-2 | |
P2-2 Retrospective Study of Behavioral and Psychiatric Problems in People with Intellectual Disability
Akiko Nagae (Biwako Gakuen Kusatsu Medical and Welfare Center for Children and Persons with Severe Motor and Intellectual Disabilities, Japan)

P2-3 Autism Spectrum Disorder in Children with Congenital Cytomegalovirus Infection
Yuji Inaba (Shinshu University, School of Medicine, Japan)

P2-4 A Case of Autistic Spectrum Disorder with Self-injury Behavior Eliminated by Exercise Rehabilitation
Ayako Tsumita (Juntendo university urayasu hospital, Japan)

P2-5 How We Coordinate Rehabilitation Plan for Patients of Autistic Spectrum?
Naoki Shiota (University of Occupational and Environmental Health, Japan)

P2-6 The Support for Autistic Child’s Picky Eating Habits Using Our Original Checklist
Kiyoko Yamane (The Hiroshima City Seibu Center for Children’s Treatment and Guidance, Japan)

P2-7 Poor Gazing Behaviors in 1-Month-Old Infants Can Provide Predictions That They Will Be Diagnosed With Autism Spectrum Disorder
Shohei Watanabe (Ehime Prefectural Imabari Hospital, Saiseikai Imabari Hospital, Japan)

P2-8 Analysis of Allelic-specific Expression in a Family with Autism Spectrum Disorder on A Genome-wide Scale
Chun-Yen Lin (National Taiwan University, Taiwan)

P2-9 Five Cases of Autism Spectrum Disorder with Syntaxin1A Gene Haploidy
Takefumi Kofuji (Kyorin University School of Medicine, Japan)

P2-10 Genetic Background Identification in Four Children with Intellectual Disability and/or Autism Spectrum Disorder
Kanako Yamashita (Graduate School of Medicine, Osaka City University, Japan)

P2-11 Submicroscopic Chromosomal Aberrations as A Major Cause of Developmental Delay, Intellectual Disability and Autism Spectrum Disorder
Che-Sheng Ho (MacKay Children's Hospital, MacKay Medical College, Taiwan)

P2-12 A Follow-up Study of Attention Deficit Hyperactive Disorder Children: Differences from High Function Autism Spectrum Disorder
Toru Kurokawa (Seiai Rehabilitation Hospital, Japan)

P2-13 Inattention is A Major Factor in Determining Children's QOL and Self-Esteem
Yoichi Sakakihara (Ochanomizu Univesity, Japan)

P2-14 Epidemiology of Acute Flaccid Paralysis in Pakistan
Tipu Sultan (The Children Hospital & Institute of Child Health, Lahore, Pakistan, Pakistan)

P2-15 Acute Flaccid Paralysis in a Male Infant
Sosuke Yoshikawa (Osaka Rosai Hospital, Japan)

P2-16 Using a Single-Joint Hybrid Assistive Limb (HAL-SJ) on a 4-Year-Old Boy with Acute Flaccid Paralysis: A Case Report
Kazutoshi Ito (Fukuoka University, Japan)
P2-17  Improvement in Upper Extremity Functions in A Child with Hemiplegia in the Chronic Phase After HABIT with HAL  
Yoko Matsumoto (NikoNiko House Medical and Welfare Center, Japan)

P2-18  Accumulation of Three Pediatric Cases of Acute Flaccid Myelitis in Autumn 2015 in Nagasaki, Japan  
Kohei Haraguchi (Nagasaki University Hospital, Japan)

P2-19  A Child Case of Hopkins Syndrome Associated with Coxsackie A19 Infection  
Taira Toki (Kitasato University School of Medicine, Japan)

P2-20  An Atypical Case of Acute Disseminated Encephalomyelitis Misdiagnosed as Intracranial infection  
Qianyun Cai (West China Second University Hospital, Sichuan University, Chengdu, Sichuan, China)

P2-21  Experience of Acute Cerebellar Ataxia and Acute Cerebellitis in Children in a Single Tertiary Medical Center  
Jeesuk Yu (Dankook University College of Medicine, Dankook University Hospital, Republic of Korea)

P2-22  Six Cases of Mild Acute Encephalitis/Encephalopathy Showing Paradoxical Arousal Responses in the Electroencephalogram  
Hiroshi Terashima (National Center for Child Health and Development, Japan)

P2-23  VEGF and PDGF During Influenza-associated Encephalopathy May Serve as Indices of Neurologic Prognosis In Children  
Shinichiro Morichi (Tokyo Medical University, Japan)

P2-24  Rapidly Progressive Acute Encephalitis Associated with Influenza A, H1N1 Infection  
Min-Sun Kwak (Asan medical center Children's Hospital, University of Ulsan College of Medicine, Republic of Korea)

P2-25  MRI Volumetry of Hippocampus in Two Cases with HHV-6B-associated Encephalopathy After Hematopoietic Stem Cell Transplantation  
Misa Miyake (Fujita Health University School of Medicine, Japan)

P2-26  Human Parechovirus Type 3 (HPeV3) Causing Acute Encephalopathy in Neonatal and Early Infantile Periods — A Report of Two Cases  
Yuichi Abe (Saitama Medical University, Japan)

P2-27  Neonatal Encephalitis Caused by Enterovirus A71 Presented with Disseminated Lesions in Cortex and Subcortex  
Ryoko Nakamura (Department of Pediatric Neurology, Fukuoka Children's Hospital, Japan)

P2-28  A Case of SSPE with Multimode Seizures Resembled to Lennox-Gastaut Syndrome  
Jianmin Liang (First Hospital of Jilin University, China)

P2-29  SSPE in Pre-school Aged Child  
Kyaw Linn (Yangon Children Hospital, Myanmar)

P2-30  Survey for Ribavirin Therapy for Subacute Sclerosing Encephalitis in Japan  
Keiko Nomura (Kumamoto University, Japan)
P2-31 Clinical Characteristics of a Chinese Angelman Syndrome Patient with Two Periods of Long-standing Fever
Xiaolu Chen (West China Second University Hospital, Sichuan University, China)

P2-32 Bilateral Spontaneous Pneumothorax in A Patient with Marfan Syndrome
Fumihito Nozaki (Shiga Medical Center for Children, Japan)

P2-33 A Case of FOXP1 Abnormal Mutation with White Matter Abnormalities
Hiroko Tada (Chibaken Saiseikai Narashino Hospital, Japan)

P2-34 A Case of Poland-Mobius Syndrome
Yoshimi Watanabe (Chiba Children's Hospital, Japan)

P2-35 Michelin Tire Baby Syndrome in a Girl with Hydrocephalus: A Case Report
Takahito Inoue (Fukuoka University, Japan)

P2-36 Clinical Features in Adulthood and Elderly ATR-X (Alpha-thalassemia X-linked Intellectual Disability) Syndrome: Report of Two Cases
Koichi Mizuguchi (Tokyo Metropolitan Fuchu Medical Center for the Disabled, Japan)

P2-37 Allan-Herndon-Dudley Syndrome (AHDS) With Atypical Features, Case Report And A Literature Review
Huda Mohammed Alharbi (King Faisal specialized hospital, Saudia Arabia)

P2-38 Septo-Optic Dysplasia: Spectrum of Clinical Features of Patients with and Without Schizencephaly
Surachai Likasitwattanakul (Siriraj Hospital, Mahidol University, Thailand)

P2-39 Clinical and Neuroimaging Findings in Children with Schizencephaly: A Single Institution Experience
Po-Cheng Hung (Chang Gung Children's Hospital, College of Medicine, Chang Gung University, Taiwan)

P2-40 Ten Novel Mutations of The ERCC6, ERCC8 Genes Associated with Cockayne Syndrome and Prenatal Diagnosis for Three Fetuses
Dongxiao Li (Peking University First Hospital, China)

P2-41 Distinct MRI features in a patient with novel RARS2 mutations
Jie Zhang (Peking University First Hospital, China)

P2-42 A Chinese Boy with Geleophysic Dysplasia and Two Compound Heterozygous Mutations of ADAMTS12
Dongxiao Li (Peking university first hospital, China)

P2-43 Three Patients with MED13L Haploinsufficiency Syndrome Associated with Variable Complications
Toshiyuki Yamamoto (Institute of Medical Genetics, Tokyo Women’s Medical University, Japan)

P2-44 A Case of Oculoectodermal Syndrome with Acute Transverse Myelopathy Caused by Spinal Dural Arteriovenous Fistula
Soichiro Ishimaru (Fujita Health University School of Medicine, Japan)

P2-45 The Clinical, Biochemical and Genetic Studies on Congenital Disorders of Glycosylation Type 1a
Yuan Ding (Peking University First Hospital, China)
P2-46 The Role of MicroRNA133 Decreased Expression in Impaired Insulin Signaling in Skeletal Muscle of Catch-Up Growth IUGR Rats
Lihong Liao (Xiangya Hospital, China)

P2-47 A Japanese Boy with Microcephaly-Capillary Malformation Syndrome with Intractable Epilepsy
Ayako Hattori (Nagoya City University, Japan)

P2-48 Neurodevelopmental Outcome in Children with Corpus Callosal Abnormalities
Hyeryun Yeh (Asan medical center, Children's Hospital, Ulsan University College of Medicine Republic of Korea)

P2-49 Urinary Secretion of Oxidative Stress Markers and Melatonin in Patients with Severe Motor and Intellectual Disabilities
Yumi Okoshi (Tokyo Metropolitan Fuchu Medical Center for the Disabled, Japan)

P2-50 Energy Requirement Assessed by Doubly-labeled Water Method in Individuals with Quadriplegic Cerebral Palsy (GMFCS level V)
Nobuaki Iwasaki (Ibaraki Prefectural University of Health Science, Japan)

P2-51 Efficacy of Intrapulmonary Percussive Ventilation in Severely Disabled Children with Chronic Respiratory Disease
Haruka Oguro (Ibaraki Prefectural University of Health Sciences Hospital, Japan)

P2-52 The Effectiveness of A Combined Therapy of NPPV and MI-E for Chronic Respiratory Failure in Children with Severe Motor Disabilities
Shuji Matsui (The Tokyo Children Rehabilitation's Hospital, Japan)

P2-53 Study on Mechanical Insufflation-Exsufflation (CoughAssist E70) for Patients with Severe Motor and Intellectual Disabilities
Toshihiro Suzuki (Showa Inan General Hospital, Japan)

P2-54 Effect of Embolization on Collateral Artery of Chronic Atelectasis in Patients with Severe Motor and Intellectual Disabilities (SMID)
Sayaka Ishii (National Hospital Organization Kofu National Hospital, Japan)

P2-55 Efficacy of Repetitive Transcranial Magnetic Stimulation (rTMS) on Motor Outcomes in Children with Cerebral Palsy: A Preliminary Study
Chia-Ling Chen (Chang Gung Memorial Hospital-Linkou, Taiwan)

P2-56 Application of A New Wearable Switch Using A Sheet Stretch Sensor in Severe Cerebral Palsy - A Case Report
Akio Yamamoto (Graduate School of Health Sciences, Kobe University, Japan)

P2-57 The Effects of Severity of Motor Impairments on Changes in Daily Activity Performance in Children with Cerebral Palsy
Ching-Yi Wu (Chang Gung University, Taiwan)

P2-58 Factors Associated with The Outcomes in Activity in Daily Living in Children with Cerebral Palsy
Chia-Ling Chen (Chang Gung Memorial Hospital-Linkou, Chang Gung University, Taiwan)
The Current Status and Issues of Epilepsy in Our Residential Hospitals for Persons with Severe Motor and Intellectual Disabilities (SMID)
Shiho Honzawa (Tokyo Metropolitan/Multiple Disabilities (TRC), Japan)

A Population Based Study of Microcephaly Among Cerebral Palsy Children in West China
Fangfang Wang (West China Second University Hospital, Sichuan University, China)

Relationship Between Stature and Tibial Length for Adolescents and Adults with Moderate-To-Severe Cerebral Palsy
Kenji Kihara (Nikoniko-house medical welfare center, Japan)

CDKL5 Encephalopathy: Report of 2 Chinese Patients and Literature Review
Jiong Qin (Peking University People’s Hospital, China)

A Case of CDKL5 Disorder with The Intractable Epileptic Seizures: Improved ADL by Simple Treatment Strategy
Tatsuhiko Shike (Yokohama municipal citizens hospital, Japan)

A Rare Cause of Infantile Epileptic Encephalopathy: Hemimegalencephaly with Facial Congenital Infiltrating Lipomatosis
Didem Ardicli (Hacettepe University, Turkey)

First SEEG - Guided Surgery in Multilesional Epilepsies in Thailand: A Pediatric Case Report
Piradee Suwanpakdee (Phramongkutklao hospital, Thailand)

Central Nervous System Neuronal Surface Antibody Associated Syndrome with Infantile Spasm and GABABR Antibody: A Case Report
Xiaoli Yu (Tianjin Children Hospital, China)

The Ratio of Cerebrospinal Fluid Glucose / Blood Glucose is Correlated with the Severity of Glucose Transporter 1 Deficiency Syndrome
Shin Nabatame (Osaka University, Japan)

FDG-PET Findings in Glucose Transporter 1 Deficiency: Activity Ratio of Lenticular Nuclei and Thalami
